

Vaccines Required for School Entry in Michigan

Whenever children are in group settings, there is a chance for disease to spread. Parents must follow state vaccine laws in order for their children to attend school. These laws are the minimum standard for preventing disease outbreaks in group settings. The best way to protect children from serious diseases is to follow the recommended vaccination schedule at www.CDC.gov/Vaccines. When following the recommended schedule children are fully protected and any school vaccination requirements are met.

	All kindergartners and 4–6-year-old transfer students	All 7th graders and 7–18-year-old transfer students

¹Vaccines should be given at certain ages and at certain times (follow [CDC Immunization Schedule](http://www.CDC.gov/immunization-schedule) for the recommended number of doses, correct spacing, and ages); this chart is based on Michigan school immunization requirements. We strongly encourage parents and providers to follow the CDC recommended schedule because school requirements are the minimum for protection. Follow this chart when assessing immunization status for school immunization requirements.² If the child has not received these vaccines, documented immunity/waiver is required. During disease outbreaks, incompletely vaccinated children may be excluded from school. Parents and guardians choosing to decline vaccines must obtain a certified non-medical waiver from a local health department. Read more about waivers at www.michigan.gov/immunize.
